Bièvres, 91570, Ile-de-France, France

OBJECTIVE

Coming from the NetDevOps world, I'm seeking a PhD position in a laboratory focused on Green IoT and Network Automation. Aiming to contribute to innovative projects at the intersection of Computer Networking, Electronics, Infrastructure as Code(IaC) and Data science while being eco-friendly in the whole process to impact communities.

EDUCATION

- **Conservatoire National des Arts et Métiers (CNAM)** September 2025 - Present
MSc Computer Networks and Connected Objects
Paris, France
◦ Grade: Pending
- **Telecom SudParis** September 2021 - September 2022
Mastère Spécialisé ® Réseaux et Services
Evry, France
◦ Grade: 17.19/20
- **Ecole Nationale Supérieure Polytechnique** September 2015 - September 2021
Master of Telecommunication Engineering
Yaoundé, Cameroon
◦ Grade: 3.3/4

EXPERIENCE

- **Dassault Systèmes (3DS)**  May 2024 - Present
NetOps Engineer
Velizy-Villacoublay, France
◦ Working on 3DS World Wide Network Automation projects (BUILD and RUN)
◦ Implemented multi-vendor automation scripts following CI/CD practices (Cisco, Fortinet, Arista, Zscaler)
◦ End-to-end solutions, from design, Python scripts, GitLab CI pipelines to monitoring and dashboarding
- **SII | Bouygues Telecom**  April 2022 - March 2024
Network Consultant
Velizy-Villacoublay, France
◦ Working on Test automation of Bouygues'Internet Access Devices (IAD) for home Internet
◦ Testing Triple Play Services(Telephone, TV and Internet), Network Protocols and Customer User Interface.
◦ Writing Python test scripts and CI/CD pipelines to streamline new software versions validation.
- **INRIA Saclay - TRiBe**  March 2021 - August 2021
Research Intern
Palaiseau, France
◦ Implemented a testbed to reproduce SIMBox fraud for detection in a 4G Network
◦ Explored an innovative SIMBox fraud detection method based on signaling data analysis
◦ Conducted experiments to validate that SIMBox fraudsters present a pattern in the latency of signaling events
◦ Served as a basis for further works that have confirmed my first measurements (**Sign**).

PATENTS AND PUBLICATIONS

C=CONFERENCE, J=JOURNAL, P=PATENT, S=IN SUBMISSION, T=THESIS

- [C.1] Stephane Cliton Nyobe and Besong John Ebot **Cost-Effective Smart Agriculture Framework for Smallholder Farmers in Sub-Saharan Africa**. 2026 IEEE International Black Sea Conference on Communications and Networking (BlackSeaCom). June 2026, Romania.
- [T.1] Cliton Stephane Nyobe. **Déploiement et configuration d'une architecture matérielle de capture et d'analyse de la signalisation des réseaux cellulaires pour la détection des fraudes à la SIMBox**. HAL Inria. September 2021, France.

RESEARCH PROJECTS

- **SIMBox fraud testbed deployment in a Lab 4G LTE Network** May 2021 - July 2021
Tools: HyberTone SIMBox, SysmoSIM-SJS1, Ubuntu server
◦ SIMBox fraud strategies literature exploration (SIM rotation, SIM migration, Human Behaviour Simulation)
◦ Deployment of different SIMBox architectures on a 4G Network in Faraday's cage at Télécom Paris.
◦ Gathered RAN and Core Network logs of SIMBox alongside regular Phones in different conditions for analysis.
- **Implementing a SIMBox fraud detection method based on signaling analysis** July 2021 - August 2021
Tools: Python, Amarisoft Callbox, Wireshark
◦ Conducted experiments to deploy signaling data analysis SIMBox fraud detection method
◦ Analyzed different 4G LTE signaling events to find a pattern for SIMBox fraudsters (network attach, handover, etc)
◦ Demonstrated that SIMBox has an abnormal latency compared to regular phones during the network attach
◦ Developed a Python script for eNodeB and EPC signaling logs analysis and network attach latency computation.

SKILLS

- **Programming Languages:** Python, C, Arduino(C++)
- **Computer Networking:** Routing and Switching, TCP/IP, IPv6, BGP, MPLS, VPN, SDN
- **Database Systems:** SQL, Prometheus, InfluxDB
- **DevOps & Version Control:** GitHub, GitLab CI, Docker, Kubernetes, Shell Scripting, Jinja2, Ansible
- **Specialized Area:** Cisco Catalyst Center, FortiManager, Arista Cloud Vision Portal, ForeScout API, NetBox
- **Mathematical & Statistical Tools:** Linear Algebra, Graph Theory, Optimization
- **Research Skills:** Academic writing, Public speaking

HONORS AND AWARDS

- **Seeds for The Future Program** October 2020
Huawei Technologies Co., Ltd 
 - Granted to worldwide young talented students in ICT. This program helps develop local ICT talents, enhance knowledge transfer, promote a greater understanding and interest in the telecommunications sector, and improve and encourage regional building and participation in the digital community.
- **Competition Achievement** February 2020
Huawei ICT Competition 
 - National Final (12 selected among 300 students)
 - Written test and a Lab on Computer Networking on Huawei Devices.

LEADERSHIP EXPERIENCE

- **Temporary Tech Lead** August 2023 - November 2023
Groupe SII 
 - Replacing the Tech lead of the automation project.
 - Delivery of the remaining python test scripts required.
 - Bouygues Bbox testing automation via CI/CD pipeline.

VOLUNTEER EXPERIENCE

- **Education Volunteer** August 2025 - Present
Article 1 
 - Purpose: Helping students in France for professional integration and intellectual growth.
 - Impact: Helped a young graduated woman to be recruited at Imagine Institute in Paris.
 - Skills : Communication, Resume writing, English speaking, self confidence.
- **Website administrator/Social media manager** 2024 - Present
Mepodbassa.com 
 - Purpose: Building and animating a platform to preserve the cameroonian Basaa language.
 - Impact: Providing a French-Basaa dictionnary free to use.
 - Skills: Public speaking, web, IT infrastructure.
- **Teaching Assistant** February 2024 - March 2024
Ecole Nationale Supérieure Polytechnique de Yaounde 
 - Purpose: Teaching to 1st and 2nd year telecommunications engineering students
 - Impact: Giving Mobile Networks(1st year) and Introduction to IoT courses(2nd year)
 - Skills: Public speaking and Scientific Teaching

PROFESSIONAL MEMBERSHIPS

- **IEEE**, [Membership ID: 101903137](#) January 2026 - Present
- **ICANN**, [Membership ID: cs.nyobe.ing@gmail.com](#) December 2023 - Present
- **Cisco Community**, [Membership ID: 1629508](#) November 2023 - Present

CERTIFICATIONS

- **UC Irvine - An Introduction to Programming the Internet of Things (IOT) Specialization** (In progress)
- **Harvard - CS50 - Introduction to Programming with Python** January 2024
- **Cisco - Cisco Certified Network Associate (CCNA)** December 2023
- **Huawei - HCIA-Routing and Switching** August 2020

ADDITIONAL INFORMATION

Languages: French (Native), English (Professional), Spanish (Beginner), Basaa (Native)

Interests: Writing, Reading, Football, Japanimation, Liberal arts
